Wireless Media Adapter 300N

Product code : WLA-5001
 Product name : Wireless Media Adapter 300N
 EAN code : 8716502024636

Connect the Sitecom MD-272/MD-273 TV Media Player, a desktop PC or a notebook to your wireless network

Simply plug the Wireless Media Adapter 300N into your Sitecom MD-272/MD-273 TV Media Player, a desktop PC or a notebook to connect the device to a wireless network. The Wireless Media Adapter 300N supports Simultaneous Dual-Band and can transmit wireless signals via the 2.4 GHz frequency and the less congested 5 GHz frequency, provided your router also supports the use of two frequencies. The 5 GHz band guarantees optimal performance for time-sensitive applications, such as HD video streaming and multiplayer gaming.

The Wireless Media Adapter 300N enables you to enjoy a wireless network connection with high data transfer speed of up to 300 Mbps, provided your router and/or other desktop PCs also support the 300N standard.

Thanks to the integrated high-performance antennas you can count on maximum wireless coverage. The integrated OPS technology enables you to quickly and easily establish a secure wireless network connection between a PC and the router with just the push of a button.

Technical specifications

Dual-band technology

- Transmit signals on the 2.4 GHz or 5 GHz frequency
- 5 GHz frequency for wireless streaming without interference

Superb performance

- Standard/compliance 802.11 a/b/g/n
