Immerse in high precision sound

with MusicSeal to keep your music yours

Inspired by cities and savvy urbanites, the retro-mod CitiScape Uptown lets you immerse yourself in high precision sound with MusicSeal to keep every beat to yourself. Plus, memory foam cushions and an air-quilted headband ensure comfort and a perfect fit.

Total sound immersion on the move

- Finely tuned 40 mm premium drivers deliver precision sound
- MusicSeal keeps your music in and all to yourself
- Over-ear isolating cushions block out the city noise

Designed for comfort and ease

- Memory foam cushions keep you comfortably immersed in music
- Air-quilted headband for long-listening comfort on the move

Stay connected to your music and friends

- Built-in microphone and volume control lets you take calls

Supreme comfort

- Flat 1.2 m anti-tangle cable keeps you kink- and knot-free

PHILIPS

sense and simplicity

Highlights

Air-filled quilted headband

Air-quilted headband for long-listening comfort on the move

Built-in mic and volume control

Your CitiScape headphones feature a built-in microphone and volume control so you can easily switch from listening to music to taking phone calls. It's a breeze staying connected with your music — and with the people who matter most to you.

High precision sound

Immerse yourself in crystal clear and richly detailed sound delivered by finely tuned premium 40 mm drivers. Supported by Philips'

background in sound excellence, your CitiScape headphones are carefully engineered to reproduce high precision sound for truly captivating music enjoyment on the move.

MusicSeal

Whether you're listening to the gnashing guitar riffs of a funk metal band or the lilting soprano of an opera diva, MusicSeal ensures that your CitiScape headphones let you keep your favourite music all to yourself. With double layered walls within the ear shell and secure edges between the headphone cushions and housing, this innovative feature seals in every beat. At the same time, ambient noise is prevented from seeping through and disrupting your music enjoyment.

Over-ear isolating cushions

Be part of the city buzz but not its noise with over-the-ear sound isolating cushions. The incredibly soft ear cushions enclose the speakers around your ears to create a perfect seal. You will be able to clearly discern and enjoy all the sound details in your favourite music. Designed to alleviate pressure on your

ears, you can wear your CitiScape headphones in true comfort and for long periods of time.

Soft memory foam cushions

Ultra-soft and supple memory foam cushions hug the contours of your ears comfortably and securely to form a perfect seal. Not only are they designed to ensure the best possible fit—whatever your head shape, they also let you immerse yourself in music enjoyment for extended periods of time. In fact, they're so comfortable, you may even forget that you have them on.

Flat anti-tangle cable

Say goodbye to wrestling with knotted and messy cables in and out of your bag. Your CitiScape headphones' flat 1.2 m anti-tangle cable stays kink- and knot-free—always. Now you can focus on what matters most, like enjoying your music with ease wherever you go.
